

Company Profile: Radicom Solutions

Radicom Solutions started its operations in April 2005, with the mission to provide an organization the tools and technology which can give them a cutting edge over their competition. Radicom Solutions is well positioned in IT market to provide office automation application, business analysis and software architecture design, software development services, life time software support and maintenance.

The Mission

Radicom Solutions plans to equip the business sector in the region with tools and technologies that can help to minimize cost, maximize profit, provide optimal use of resources and ultimately result in overall growth of the business.

Business Philosophy

Radicom Solutions entered in the market with a philosophy to provide optimal solution, low cost, and outstanding customer care, and to establish long term working relationship with clients.

Radicom Solutions Development Activities

With passage of time we have managed to build a solid team of software outsourcing professionals that come from various backgrounds and expand the creative potential of the company. We hold strong technical expertise in MS Visual Studio 2005, .Net Framework 2.0, VB.Net, ASP.Net Compact Framework, VB 6.0, ASP 3.0, PHP, Apache ASP, Microsoft SQL Server, Oracle & MySQL. This to a great extent defines the quality and reliability of the custom software applications that we develop.

Radicom Solutions delivers custom application programming services to end customers and we provide offshore software outsourcing services and products to our customers. Our competence and experience ensure that we deliver excellent services and products to our customers. At every stage of the development process, from conceptual design to product release, the highest quality standards are maintained.
